

## Mozambique – untrammeled Africa

**NiassaLand Safaris LDA** is the Mozambique subsidiary of SafariBwana, a newly established safari operator with diverse strengths, able to cater not only to the serious hunter but also to his family and the adventure seeker who wants to experience Mozambique in its entirety. Not only do we offer classical hunting but we strive to combine this with the best of the country's sights, beaches, big game fishing, culture and history.

Mozambique is the classic Africa of old, vast concessions in extreme conditions – remote and untouched – with dangerous game trophies which are nothing short of spectacular. Despite a rough start to the Safari industry in this country, reliable and trusted operators are now gaining a foothold and we are pleased to offer this piece of old Africa to our clients without reserve or hesitation.

Our strength lies in our diversity, being able to cater not only to the serious hunter but also to his family and the adventure seeker who wants to experience Mozambique in its entirety. Not only do we offer classical hunting but we strive to combine this with the best of the country's sights, beaches, big game fishing, culture and history.

We invite you to join our safari family on the adventure of a lifetime to one of Africa's undiscovered hunting destinations – Mozambique!

## The Niassa Region & Mosale

The Niassa National Reserve lies in the top western corner of Mozambique against the Tanzanian border and covers an area of 42,200 square kilometers – 36% of the country's formal protected area estate.

The Niassa reserve still stands as one of Africa's least developed wildlife areas and is without a doubt set to become one of the continents wildlife gems. A significant amount of donor and private funding has gone into the development and conservation of the core reserve while the outlook of all involved remains realistic in that everyone understands the significance of trophy hunting. The latest wildlife surveys indicate stable and increasing numbers of wildlife. The elephant population is estimated at over 20,000 animals with many big tuskers prevalent – Sable stand at 13,000 while Buffalo numbers are estimated from 4000 to 6000. The Lion population stands at 1000 while leopard are believed to far exceed this number with regular sightings and tracks In addition Niassa supports numerous other antelope species: Kudu, Eland, Lichtensteins Hartebeest, Niassa Wildebeest, common Waterbuck, Kudu, chobe Bushbuck, Impala, Reedbuck, common and red duiker, hippo, crocodile and Hyena.

Our hunting concession is known as Mosale, a privately owned game reserve in excess of 270,000 acres lying on the southern boundary of the Niassa Reserve with the magnificent Lugenda river splitting the concession in two. The reserve has seen almost no hunting since its establishment, with the initial focus being on anti-poaching and photo safaris rather than hunting which has resulted in a healthy population of all the classic big game and plains game species. Big elephant are numerous and in line with tuskers you can expect out of Niassa while Lion are all excellent mature males. Leopard are plentiful and buffalo numbers are healthy. The area has excellent Sable populations and VERY LARGE Livingstone Eland.

We are pleased to offer this concession for the first time under the SafariBwana family umbrella and as a privately owned reserve in the famous Niassa region, this is set to become one of our flagship classical safari properties. Being privately owned, Mosale is detached from the higher fees of the Niassa reserve concessions thus offering not only a more reasonably priced hunt but also the ability to structure safaris exactly as clients desire.

MOSALE – Niassa province – Classical Safaris & Rates

safari pricing 2012

## Mosale 2012 Trophy fees

2012 (please note trophy fees subject to change for 2013)			
Lion	US\$10500	Leopard	US\$3050
Buffalo	US\$3500	Sable	US\$3500
Crocodile	US\$1500	Hippo	US\$2000
Lichtensteins Hartebeest	US\$1350	Livingstones Eland	US\$2800
Impala	US\$250	Niassa Wildebeest	US\$1900
Zebra	US\$1500	Sharps Grysbok	US\$700
Common Duiker	US\$180	Hyena	US\$1550
Kudu	US\$1500	Bushpig	US\$590
Warthog	US\$450	Elephant – Tuskless Bull	US\$ 7,500
Common Waterbuck	US\$1500	6I - 75lbs extra	US\$10,000
Chobe Bushbuck	US\$720	76 – 90 lbs extra	US\$20,000
Common Reedbuck	US\$650	9I lbs and over	US\$40,000

- Note no elephant below 50lbs will be taken with the exception of OLD Tuskless or broken tusk bulls which we are trying to eliminate for genetic purposes
- For Lion hunts it is suggested that your trophy list of animals includes Hippo, Eland and Buffalo as this makes excellent bait.
- Some species may not be available on certain safaris due to quota restrictions
- Upon the booking of a safari clients must indicate their trophies of choice to avoid disappointment due to quota restrictions

### About our trophy selection process

- We are committed to the long term conservation of the Mosale hunting block and carefully select only mature males for hunting – no females or immature animals may be taken regardless of the situation.
- Lion trophies are restricted to males of 6 years or older and the decision and call on this is at the sole discretion of your professional hunter. Their decision must be accepted and adhered to and there will be no refunds of any safari fees relating to this decision.
- Any mature male lion found to be with females who are lactating, have cubs or appear to be pregnant WILL NOT be allowed to be taken – there are no arguments on this issue!
- Elephant ivory from Mozambique is currently NOT ALLOWED to be imported into the United States at present – so please realise your ivory will have to remain in the country until such a time as the USFWS allow ivory imports from Mozambique
- There is no distinction between trophy animals and bait animals, full trophy prices apply for all animals shot whether as bait or as trophy.

permits & documentation

cites permit application

If you are hunting Leopard it is imperative to obtain a CITES I permit allowing you to you hunt and import the trophy back into your home country – before you arrive in Mozambique. Lion are on CITES II which only requires a permit from the country of origin.

**guns and ammunition for mozambique**

- regulations state a calibre of no less than 9.3mm or .375 magnums be used on dangerous thick-skinned game. This applies to all dangerous game other than Leopard for which a minimum of 7mm or higher is required.
- no military style weapons or calibres are permitted into the country.
- no more than 80 rounds per rifle and 200 shells per shotgun are allowed to be brought into the country, however please bring as advised in our correspondence.
- please make sure that you are shooting premium quality ammunition, loaded for African game. For Buffalo, Elephant and Hippo bring the heaviest grain bullets you can get.
- ammunition is not available in Mozambique, however we may have a supply in camp
- a temporary import permit for your rifles / shotguns is required. This is applied for in advance by us – ensure you give us all your firearm particulars, passport details and personal
- you will have to declare the amount of ammunition you intend bringing into the country. You will pay a customs duty and excise tax for each round of ammunition brought into the country.
- You **MUST** tell us the exact amount of ammunition you will have on you as this has to be indicated on your firearm import permit.

**Niassaland Safaris LDA - Francisco Manyanga Avenida 25 de Junho, Tete - Tete, Mozambique**

## terms of business

- no refund of deposit can be made if a client cancels the safari less than six (6) months of the contracted starting date, unless the safari can be rebooked.
- in all other instances, the deposit will be refunded less 10% administration fees
- if a client postpones the safari to the following year the deposit, less 10% administration fees and PH fees, will be applied to the postponed safari
- clients are responsible to settle the outstanding safari fees, trophy fees and charter fees in full, before their departure from camp. Payments can be made in US\$ travellers' cheques or US\$ cash. No personal cheques or credit cards can be accepted.
- while we go to every effort to ensure our prices remain firm, we have no control over any increases implemented by the Mozambique Wildlife Authority. In this regard, if such increases occur we reserve the right to alter fees directly related to these increases.
- any safari hunting activity is potentially hazardous and it is essential that the lawful directions and instructions of the safari operator and professional hunter be followed at all times for the duration of the safari.
- Hunting is a sport where chance plays an important role and therefore no refund of any safari fees will be made mid safari if the client elects to stop the hunt regardless of the conditions in the field or what the client perceives
- neither Niasaland Safaris LDA, nor any of its affiliated companies, agents or sub-agents shall be or become liable or responsible in any way for any loss, injury or damage to or in respect to any person or property whatsoever caused or arising.
