

Mozambique – untrammled Africa

SafariBwana offers trophy hunting based on sound ethical principles in the field while pursuing the many indigenous species Mozambique has to offer. Our goal is to provide a hunting experience which is a challenge of skill, energy and perseverance; the reward of a trophy being the conclusion to a successful hunt and not the only measure. Our business is based upon family tradition and knowledge, bringing you a safari that is not only true to African ways but also considers the natural balance of our concessions and their relation to the local communities.

NiassaLand Safaris LDA is the Mozambique subsidiary of SafariBwana, a newly established safari operator with diverse strengths, able to cater not only to the serious hunter but also to his family and the adventure seeker who wants to experience Mozambique in its entirety. Not only do we offer classical hunting but we strive to combine this with the best of the country's sights, beaches, big game fishing, culture and history.

Mozambique is the classic Africa of old, vast concessions in extreme conditions – remote and untouched – with dangerous game trophies which are nothing short of spectacular. Despite a rough start to the Safari industry in this country, reliable and trusted operators are now gaining a foothold and we are pleased to offer this piece of old Africa to our clients without reserve or hesitation.

We invite you to join our safari family on the adventure of a lifetime to one of Africa's undiscovered hunting destinations – Mozambique

NiassaLand Safaris Hunting Reserve - Mozambique

We are extremely pleased to announce the newest addition to our hunting portfolio in Mozambique, a 160,000 acre hunting reserve, in the heart of big game country in the north western part of the country. Lying in the foothills of the Luangwa and Zambezi valleys, this area consists of Miombo forests interspersed with Mopani woodland and open grasslands which support a healthy family of big game species. These include the big boys – Lion, Elephant, Leopard and Buffalo as well as Roan, Sable, Kudu, Eland, Lichtensteins Hartebeest, common Waterbuck, chobe Bushbuck, Impala, Reedbuck, common and red duiker, Bushpig, Warthog, Hippo, Crocodile and Hyena.

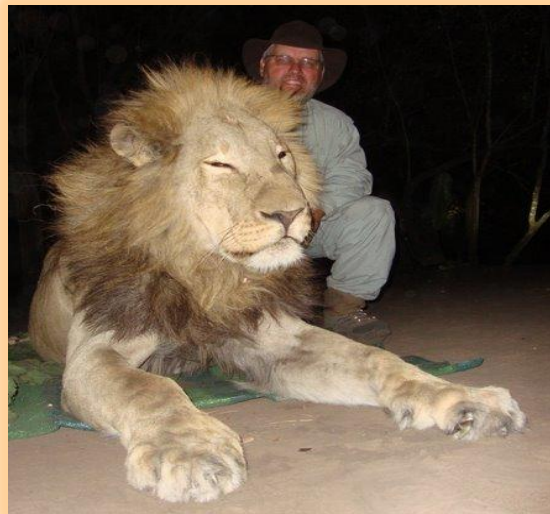

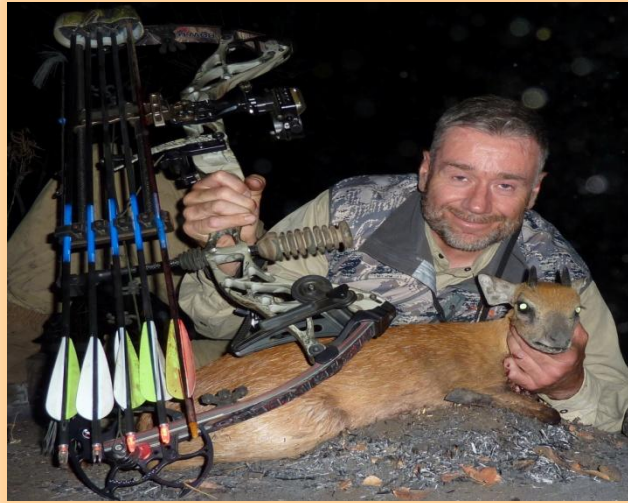

Taken from the latest issue of The Hunting Report – December 2011

Over in Mozambique, subscriber Mike Daley took a gorgeous MGM-quality lion with a 25-inch skull while hunting with Pete Swanepoel. You may know Swanepoel from his SafariBwana operation in Zambia. Seems Swanepoel has partnered with Graham Cawood to create a new Mozambique operation called NiassaLand Safaris.

They are hunting near Chifundi, about a 3½-hour drive out of Tete. Daley writes of the area, “We found some great potential for big game there. The area is big with a government concession connecting to it. We were on an exploratory hunt and got to see lots of new territory and have a true African experience. We saw 60- to 80-pound elephant, big leopard, excellent plains game and plenty of sign from another big lion in the area. We had lions near camp at night, along with leopards and elephant. Twenty-one elephants walked past us while we sat in the lion blind.

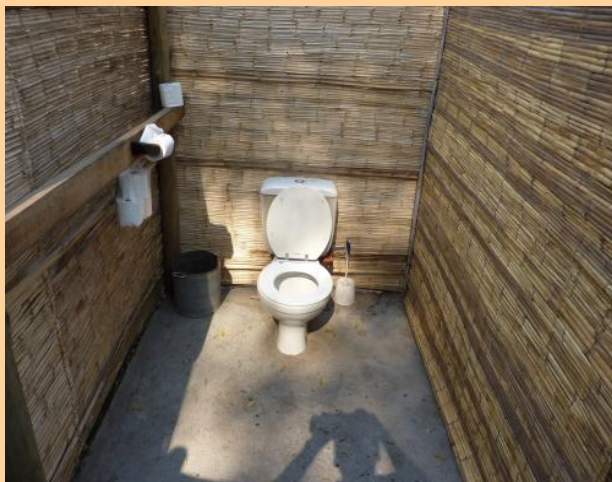

“We were building roads while exploring and found a great area along the river, where we saw lots of different game, including hartebeest, bushbuck, impala and enough roan, kudu and klipspringer to make one drool! We also spotted Sharpe’s grysbok in broad daylight and warthogs. There was sign of sable and buffalo, although we did not spot any. And there were lots of crocodiles in the river.” Daley says there is some poaching in the area and that Swanepoel and Cawood are working with the local game scouts and villages to get it under control. “I had a great time, and know, as they continue to develop this area, it is only going to get better,” concludes Daley. In addition to the lion, Daley also took a steenbok, hyena, 54-inch kudu, a warthog and a Sharpe’s grysbok. He says they also had a leopard on bait but were unable to connect with him.

- Dip, pack and crating of trophies – approx. \$2000 per client AND \$3500 for any Elephant feet, panels, ears or complete trophy mount
- Shipping and export documentation as per the taxidermist prices in Tete – we will put you in touch with them prior to the start of your safari.

About our trophy selection process

- We are committed to the long term conservation of the hunting reserve and carefully select only mature males for hunting – no females or immature animals may be taken regardless of the situation.
- Lion trophies are restricted to males of 6 years or older and the decision and call on this is at the sole discretion of your professional hunter. Their decision must be accepted and adhered to and there will be no refunds of any safari fees relating to this decision.
- Any mature male lion found to be with females who are lactating, have cubs or appear to be pregnant WILL NOT be allowed to be taken – there are no arguments on this issue!
- Elephant ivory from Mozambique is NOT ALLOWED to be imported into the United States and certain other countries at present – inquire with us before you book your hunt

permits & documentation

cites permit application

If you are hunting Leopard it is imperative to obtain a CITES I permit allowing you to you hunt and import the trophy back into your home country – before you arrive in Mozambique. Lion are on CITES II which only requires a permit from the country of origin. Elephant are non exportable for US citizens – other countries are allowed to import ivory from Mozambique (enquire with us before your trip).

guns and ammunition for Mozambique

- regulations state a calibre of no less than 9.3mm or .375 magnums be used on dangerous thick-skinned game. This applies to all dangerous game other than Leopard for which a minimum of 7mm or higher is required.
- no military style weapons or calibres are permitted into the country.
- no more than 100 rounds per rifle and 200 shells per shotgun are allowed to be brought into the country, however please bring as advised in our correspondence.
- please make sure that you are shooting premium quality ammunition, loaded for African game. For Buffalo, Elephant and Hippo bring the heaviest grain bullets you can get.
- ammunition is not available in Mozambique, however we may have a supply in camp
- a temporary import permit for your rifles / shotguns is required. This is applied for in advance by us – ensure you give us all your firearm particulars, passport details and personal information (see form attached to this letter)
- you will have to declare the amount of ammunition you intend bringing into the country. You will pay a customs duty and excise tax for each round of ammunition brought into the country.
- You MUST tell us the exact amount of ammunition you will have on you as this has to be indicated on your firearm import permit.

terms of business

- no refund of deposit can be made if a client cancels the safari less than six (6) months of the contracted starting date, unless the safari can be rebooked.
 - in all other instances, the deposit will be refunded less 10% administration fees
 - if a client postpones the safari to the following year the deposit, less 10% administration fees and PH fees, will be applied to the postponed safari
 - clients are responsible to settle the outstanding safari fees, trophy fees and charter fees in full, before their departure from camp. Payments can be made in US\$ travellers' cheques or US\$ cash. No personal cheques or credit cards can be accepted.
 - while we go to every effort to ensure our prices remain firm, we have no control over any increases implemented by the Mozambique Wildlife Authority. In this regard, if such increases occur we reserve the right to alter fees directly related to these increases.
-
- any safari hunting activity is potentially hazardous and it is essential that the lawful directions and instructions of the safari operator and professional hunter be followed at all times for the duration of the safari.
 - Hunting is a sport where chance plays an important role and therefore no refund of any safari fees will be made mid safari if the client elects to stop the hunt regardless of the conditions in the field or what the client perceives
 - neither Hunt Logic nor any of its affiliated companies, agents or sub-agents shall be or become liable or responsible in any way for any loss, injury or damage to or in respect to any person or property whatsoever caused or arising.
